			Creek; in 1878, part to				
			Bake Oven.				

NOTE.—The following *unincorporated* places have been separately returned by the enumerators. The list is not by any means complete, as very many enumerators have failed to separate such bodies of population. The population of these places has, of course, been included in the precincts in which they are respectively situated. The figures can be considered as only approximate, as the limits of such places are not sharply defined.

New Salem borough	224			York township	2,379	2,594	In 1870, incl. Dallastown [borough.]
North Codorus township	2,550	2,476					
Paradise township	1,372	1,300					

NOTE.—The following *unincorporated* places have been returned separately by the enumerators. The list is not by any means complete, as very many enumerators have failed to separate such bodies of population. The population of these places has, of course, been included in the townships in which they are respectively situated. The figures can be considered as only approximate, as the limits of such places are not sharply defined.

NOTE.—The following *unincorporated* places have been returned separately by the enumerators. The list is not by any means complete, as very many enumerators have failed to separate such bodies of population. The population of these places has, of course, been included in the townships in which they are respectively situated. The figures can be considered as only approximate, as the limits of such places are not sharply defined.

Name of place.	Township.	County.	Popula- tion.	Name of place.	Township.	County.	Popula- tion.

[county. Do. Do. Troupsdales

NOTE.—The following *unincorporated* places have been returned separately by the enumerators. The list is not by any means complete, as very many enumerators have failed to separate such bodies of population. The population of these places has, of course, been included in the civil districts in which they are respectively situated. The figures can be considered as only approximate, as the limits of such places are not sharply defined.

Name of place.	Civil district.	County.	Population.	Name of place.	Civil district.	County.	Population.

TABLE III.—TEXAS—Continued.

NOTE.—The following *unincorporated* places have been returned separately by the enumerators. The list is not by any means complete, as very many enumerators have failed to separate such bodies of population. The population of these places has, of course, been included in the precincts in which they are respectively situated. The figures can be considered as only approximate, as the limits of such places are not sharply defined.

Name of place.	Precinct.	County.	Popula- tion.	Name of place.	Precinct.	County.	Popula- tion.

NOTE.—The following *unincorporated* places have been returned separately by the enumerators. The list is not by any means complete, as very many enumerators have failed to separate such bodies of population. The population of these places has, of course, been included in the precincts in which they are respectively situated. The figures can be considered as only approximate, as the limits of such places are not sharply defined.

NOTE.—The following *unincorporated* places have been returned separately by the enumerators. The list is not by any means complete, as very many enumerators have failed to separate such bodies of population. The population of these places has, of course, been included in the towns in which they are respectively situated. The figures can be considered as only approximate, as the limits of such places are not sharply defined.

NOTE.—The following *unincorporated* places have been returned separately by the enumerators. The list is not by any means complete, as very many enumerators have failed to separate such bodies of population. The population of these places has, of course, been included in the magisterial districts in which they are respectively situated. The figures can be considered as only approximate, as the limits of such places are not sharply defined.

NOTE.—The following *unincorporated* places have been returned separately by the enumerators. The list is not by any means complete, as very many enumerators have failed to separate such bodies of population. The population of these places has, of course, been included in the magisterial districts in which they are respectively situated. The figures can be considered as only approximate, as the limits of such places are not sharply defined.

NOTE.—The following unincorporated places have been returned separately by the enumerators. The list is not by any means complete, as very many enumerators have failed to separate such bodies of population. The population of these places has, of course, been included in the towns in which they are respectively situated. The figures can be considered as only approximate, as the limits of such places are not sharply defined.

WYOMING TERRITORY.

NOTE.—As the precincts in the different counties were not separately returned by the enumerators, the counties cannot be published in detail. The list given below embraces all the places which can be separately given. The figures for the unincorporated places can be considered as only approximate, as the limits of such places are not sharply defined.

Name of place.	County.	Population.	Name of place.	County.	Population.
Atlantic City	Sweetwater	82	Green River City	Sweetwater	327
Carbon	Carbon	365	Hilliard	Uinta	73
